FOREIGN NEWS.

Germany is about to impose a stamp duty on
tobacco, which has provoked an exciting discus-
sion in the Reichstag. Prince Bismarck favors
the imposition of the new duty, and insists that
the increase of the revenues from direct taxation
has become a national necessity.

Our latest advices from Italy state that Car-
dinal Pecci was elected Pope. The Cardinals
were to open the debate on Feb. 25, as to the
attitude to be adopted by the Holy See toward
the Italian Government.

Earl Russell is seriously ill, and fears were en-
tertained of his death. He is quite an old man,
and therefore the chances of his recovery are
against him.

A dispatch from the Spanish Cabinet of the
22nd February, states that the Spanish Govern-
ment will permit 18,000 troops to return from
Cuba immediately. This looks as if Spain was
about to abandon the war in Cuba, and let the
Cuban revolutionists have things all their own
way. Should this number of troops leave Cuba,
the next news we will have to chronicle will
be the establishment of the independence of
the "ever faithful" island.

The Eastern War.

From London, we have advices to Feb. 22nd.
The Agency Russe, the official organ, is credited
with publishing that the Turkish Ambassador
will not come to St. Petersburg to negotiate for
peace, because the Grand Duke Nicholas has
full power to act in the premises.

A Vienna special confirms the report that the
Czar has threatened to occupy Constantinople.
The Porte hesitates to accept the Russian con-
ditions of peace, which would virtually abolish
Turkish dominion in Europe, except in the im-
mediate neighborhood of Constantinople.

The Porte holds constant Cabinet Councils
without arriving at any definite results.

Another despatch dated Constantinople, reports
that the Russians will occupy Constantinople if
the Turks continue to delay signing the terms
of peace, which include Armenia and the surren-
der of the Turkish fleet.

The Agency Russe denies the report that the
Russians are about to enter Constantinople.

Various Reports.

The London Times says: "Immediate anxiety
is allayed. Two dangers remain—one that the
Turks may yet even be encouraged to further
assistance by the vote of credit and the recent
movement of English ships; the other that the
approximation of the warships of England
and Russia may lead to accidental collision."

Large meetings of the working classes of Eng-
land in favor of a peace policy have been held
in Hyde Park, which have given uneasiness to the
Ministry.

Bismarck's late speech is disliked in South
Germany, where the popular wish is to support
Austria.

Assurances are extensively circulated by the
friends of the government, that Germany will
not oppose Austria in a war policy.

The idea of a Congress seems to be abandon-
ed, as negotiations for a Conference have begun
afresh.

It is officially announced, that the Turks com-
menced the evacuation of Erzerum, on the 17th
February, and expected to complete it by the
21st of the same month.

A telegram from Athens reports, that the
Turks have occupied Platono and burned a por-
tion of the town. The insurgents recaptured the
place.

The Romanian forces having left Bulgaria,
the Russians requested a Serbian division to
occupy Widdin and Belgrade.

Many Turkish deputies have been arrested
and sent into exile.

The English Channel Squadron was directed to
call at Malta for orders.

A Vienna correspondent states that the in-
tention to immediately mobilize a portion of the
army has been abandoned, but the Austro-Hun-
gan delegation will be asked to vote \$0,000,000
florins, in order that the government may have
means in readiness, in case mobilization should
become necessary.

The Tidal Wave at Callao.

New York, February 22d.—A correspondent
of the Star and Herald, of Panama, writing:
January 27th, says of the tidal wave at Callao:
"That morning when the tide receded, it was
noticed that boats and coasting craft along shore
were left high and dry, and when the wave re-
turned, it passed with immense force over the
walls of 'Muelle Dorso,' rushing up over newly
made ground toward the station of the Oroya
Railroad for a distance of three hundred feet,
carrying everything before it. Launches, num-
bers, little cane huts, buildings, and one or two
small enclosures around the coal and lumber
yards, etc., were completely destroyed. The
massive walls of 'Muelle Dorso,' in front of
the English railway station, were torn away, and
in the station itself a train of freight cars was
wrecked, such was the amount of water entering
the station. The surf was tremendous high.
The waters in the Bay of Callao during the day
were so troubled as to render communication
with vessels almost impossible, so that the dam-
age done them could not be ascertained. For
several days previously several strong shocks of
earthquake were felt near Lima, but no serious
damage was done.

Callao, Iquique and Arica experienced severe
earthquake shocks on the night of January
23d, causing great excitement and some dam-
age, while Hayti was visited by a heavy
rainstorm, a phenomenon unprecedented there
within the memory of man.

A correspondent, writing next day, says:
"The sea was very violent, in which ships rolled
feebly, and the decks of the Peruvian man-of-
war were repeatedly swept by the waves. The
eighteen boats of concrete of which the
copying of the Muelle Dorso was formed, were
knocked out and strewn about. Coal, goods and
trucks on the railroad tracks were overturned
and scattered in different directions, and a large
amount of goods destroyed. Several vessels
broke their moorings, but were again secured.
Almost all the old wooden moorings have been
swept away. All the forts fronting on the sea
suffered."

Miscellaneous.

From Washington City, we have news that
the bill which has been introduced at the time
of the Senate of the United States for several days,
passed that body on the 22d ult., by a more
than two-thirds vote. Should the House pass
it by a like vote, it will become a law despite
the opposition of the President, who will in that
event be powerless to prevent it.

Senator Jones of Nevada, has gained quite a
reputation for the clever manner in which he
managed the silver bill in the Senate, and the
newspapers correspondents give him credit, for
having made both an ingenious and powerful
speech, in favor of the bill in its final bearing in
the Senate.

Orders have already been sent by the Secretary
of the Treasury of the United States, to all
the Mints, to prepare, with all the haste they can
command, for the coining of silver dollars.

A quantity of Central American Antiquities,
have been received in New York.

The large commercial house of Meradio and
Black, in the city of Mexico, has failed.

Two rich quicksilver mines have been dis-
covered, in the State of Guerrero, Mexico.

Devastating floods in some of the Eastern
States, and in parts of California are reported.

The wheat crop of California, the present year,
promises to be very large on the average, owing
to the rain-fall in due season to suit the growth
of the crop.
